Amid Canada row, Indian envoy to UK denied entry to Scotland gurudwara by radical Sikh activists

The incident comes amid a diplomatic row between India and Canada following Justin Trudeau's claim alleging India's possible involvement in killing of Nijjar.

Prime Minister Narendra Modi has embarked on an election campaign in four poll-bound states: Madhya Pradesh, Rajasthan, Telangana, and Chhattisgarh. This extensive campaign will span from September 30 to October 6, encompassing eight rallies across six days. During these visits, PM Modi will not only address the electorate but also inaugurate various projects and public welfare initiatives. In Chhattisgarh, he'll attend the concluding ceremony of two BJP 'Parivartan Yatras' and lead a 'Parivartan Mahasankalp' rally. In Telangana, he'll lay the foundation stone for multiple projects, while in Madhya Pradesh, he'll hold public meetings in Gwalior, and in Rajasthan, a public rally in Chittorgarh.

INDIA News

The Bharatiya Janata Party (BJP) on Saturday reacted strongly after the Indian High Commissioner to the UK, Vikram Doraiswami, was allegedly prevented by radical Sikh activists from entering a gurdwara in Scotland's Glasgow. According to a purported video posted on the Instagram channel of 'Sikh Youth UK', a man, reportedly a pro-Khalistani activist, was seen blocking Doraiswami from entering the Glasgow gurdwara on Albert Drive. Reacting to the incident BJP leader Manjinder Singh Sirsa said, "I strongly condemn this (that Vikram Doraiswami was allegedly stopped from entering a gurdwara in Scotland). Anyone from any religion or community can come here (gurdwara). We are not that religion that believes in violence instead we are among those who are saviours of humanity. Sikhs are the saviours. PM Modi has praised the work of our community. Sikhs are represented everywhere in the world. The safest place for the Sikhs in the world is in

India, Argentina sign Social Security Agreement for professionals

The economic and commercial ties between India and Argentina have grown exponentially in recent years.

New Delhi: The National Investigation Agency (NIA) has filed a charge sheet against the sole accused in the Kerala train arson case, in which three passengers, including a child, were killed and nine others injured in April. Shahrukh alias Shahrukh Saifi (27) is accused of committing the terror act by setting the D1 Coach of Alappuzha-Kannur Executive Express on fire on 2nd April, 2023.

The NIA charge sheet, filed on Friday, says Saifi, the sole accused in the case, had thrown and sprinkled petrol on the passengers and set the bogey on fire with a lighter with the intention to kill people.

A resident of Shaheenbagh in New Delhi, Saifi had boarded the moving Alappuzha-Kannur Executive Express, committed the terror act, and continued to travel in the same train till Kannur, before escaping to Ratnagiri in Maharashtra, from where he was eventually arrested. He had travelled to Kerala from New Delhi on March 31 and reached the state on April 2.

India and Argentina on Friday signed a Social Security Agreement (SSA). The agreement was signed by India's Ambassador to Argentina Dinesh Bhatia and Argentina's Minister of Foreign Affairs, International Trade and Worship Santiago Cafiero in the presence of Argentine Minister of Labour, Employment and Social Security Raquel Kismar de Olmos. The SSA applies to legislation in India concerning old age, survivor's pension and permanent, total disability pension for employed persons as well as to legislation in Argentina concerning contributory benefits of the Social Security System, as per a release issued by the Indian Embassy in Argentina. The agreement provides detached workers, i.e., employees working in another country on a temporary basis, and their family members with rights to contributory benefits such as cash allowance for retirement or pension, rent, subsidy or lump sum payments as per local legislation without being subject to any reduction, modification, suspension, suppression or retention.

Nijjar killing: S Jaishankar's 'Americans look at Canada' comment as Antony Blinken raises concern

S Jaishankar confirmed that he had spoken to Antony Blinken about Canadian PM Justin Trudeau's allegations against over killing of Hardeep Singh Nijjar.

India's solar mission Aditya L1 has travelled beyond a distance of 9.2 lakh kilometres from the Earth and has successfully escaped the sphere of the Earth's influence. It is now navigating its path towards the Sun-Earth Lagrange Point 1 (L1), the Indian Space Research Organisation (ISRO) said on Saturday. "This is the second time in succession that ISRO could send a spacecraft outside the sphere of influence of the Earth, the first time being the Mars Orbiter Mission", the Indian space agency said in a post on social media platform X. This comes days after the spacecraft underwent a key manoeuvre in the early hours of September 19, marking the beginning of the spacecraft's 110-day trajectory to the destination around the L1 Lagrange point, a balanced gravitational location between the Earth and the Sun. "Off to Sun-Earth L1 point! The Trans-Lagrangian Point 1 Insertion (TL1) manoeuvre is performed successfully. The spacecraft is now on a trajectory that will take it to the Sun-Earth L1 point. It will be injected into an orbit around L1 through a maneuver after about 110 days", ISRO had said in a post on X.

INDIA News

Americans have said and hoped that they, too, have seen what he has said on the matter.

Jaishankar earlier confirmed that he had spoken to Blinken and US national security advisor Jake Sullivan about Canadian Prime Minister Justin Trudeau's allegations of India's possible involvement in the June killing of Hardeep Singh Nijjar in Canada.

Addressing a press conference in Washington DC, Jaishankar said, "I saw what the Americans have said, and hopefully, the Americans have seen what I have said. I think both of us have articulated our respective views...so I really don't know, beyond that, what else I can add."

Jaishankar added that the larger issue in the matter is the "permissiveness" regarding the incidents of violence and extremism in Canada, which has been flagged by India.

"No incident is isolated and no incident is the totality. There is a context for everything and there are multiple problems out there, so in the case of individual cases, I guess we will have to see...the concerned governments will have to talk with each other, and see how they take it forward. But there is a larger issue, and I think the larger issue should be flagged. I think the larger issue is the permissiveness that I have flagged," Jaishankar said.

City News

MCG officials said that a meeting was held in this connection in their office at Sector 42 on Friday. Officials said that they have identified the roads that will be constructed using plastic waste. MCG joint commissioner Naresh Kumar said that they have decided to float tenders so that the work is outsourced and the civic body team will only need to monitor the project. "We formed teams, did the ground work and then decided to float the tender last week. The new agency will use at least 8% of plastic waste mixture in bitumen to construct the roads. They will purchase the mixture from MCG's concessionaire and the price will range between ₹23 and ₹27 per kilogram, said officials.

How amateur mapmakers are solving real world problems

FOSSEE, or Free/Libre and Open Source Software for Education, is a project developed by IIT-Bombay and funded by the Ministry of Education

LUCKNOW The Uttar Pradesh government has announced a comprehensive campaign aimed at verifying beneficiaries under the PM-Kisan Samman Nidhi scheme. This initiative seeks to complete Aadhaar seeding and e-KYC processes by October 15 to ensure that every eligible farmer receives their entitled benefits, a government spokesperson revealed on Saturday. As part of this campaign, nominated personnel from nyaya panchayats and revenue villages will embark on a door-to-door outreach, armed with lists of pending e-KYC verifications and Aadhaar seeding. Their mission is to expedite these processes and leave no eligible farmer behind. Additionally, an e-KYC campaign will be conducted at the village level in Rabi Goshtis and Kisan Pathshalas. The state government has issued comprehensive guidelines to govern the execution of this campaign. This effort comes in the wake of an alarming report published by HT on Thursday, which disclosed that over 54 lakh PM-Kisan beneficiaries in U.P. are still awaiting verification. These unverified farmers make up more than 25% of the total beneficiaries in the state.

wetlands and their resources.

So, when Kashyap, along with 49 participants from across India, was selected for phase one of the first partnership-driven FOSSEE-GIS mapping internship by the Indian Institute of Technology (IIT) Bombay that kicked off last week, her natural choice was producing a map of Dipor Bil and the threats facing its habitat.

FOSSEE, or Free/Libre and Open Source Software for Education, is a project developed by IIT-Bombay and funded by the Ministry of Education. The project promotes 14 FLOSS tools such as Quantum Geographical Information Systems (QGIS), Python, Scilab, Open Source Hardware and R to reduce the dependency on expensive proprietary software (legally the property of the creator and therefore a license has to be purchased for use and renewed for a fee) in educational institutions and ensure commercial software is replaced by equivalent FLOSS tools.

During her one-month internship, Kashyap will create a map of the wetland by feeding data such as water turbidity and levels of biological and chemical oxygen demand on QGIS, which is the most popular, free and open source platform. "Freshwater is key for all human needs. Dipor Bil is a dynamic wetland, but knowledge about it is scant. It's important to understand the hydrological aspects and ecological processes for its protection and

Rajasthan's Udaipur police on Saturday arrested five people, including a woman and a sub-inspector of the Central Reserve Police Force (CRPF) for smuggling an elephant tusk weighing 8kg having an international market value of Rs.1.5 crore, officials aware of the matter said.

Police said the accused were caught red-handed while trying to sell the item. All were arrested and interrogated on Saturday, during which they revealed that they had smuggled the elephant tusk from Coimbatore in Tamil Nadu and were selling it to a buyer in Udaipur.

The arrested accused were identified as CRPF sub-inspector Rahul Meena, a resident of Gadi Alwar; Amrit Singh Gurjar, a resident of Dosa; Arjun Singh

INDIANNEWS File | C:/Users/SHREE%20GANESH/citiesnews.html

During her one-month internship, Kashyap will create a map of the wetland by feeding data such as water turbidity and levels of biological and chemical oxygen demand on QGIS, which is the most popular, free and open source platform. "Freshwater is key for all human needs. Dipor Bil is a dynamic wetland, but knowledge about it is scant. It's important to understand the hydrological aspects and ecological processes for its protection and conservation," said Kashyap. Clearing the first phase will bag her a six-month rigorous internship. Toppers of this internship will win a chance to do their final year project at the institute, mentored by its faculty.

In 18 months, this is Kashyap's second go at producing a map. From February 1-March 28, 2022, she and Mohida Shaikh, both master's degree students at the Symbiosis Institute of Geoinformatics, Pune, participated in the second edition of the IIT-B-FOSSEE-GIS Mapathon. Employing open source data on rainfall, satellites, rivers, streams and tributaries on the QGIS platform, the duo had created a Flood Risk Map of 24 South Parganas (West Bengal), bagging third position.

Police said the accused were caught red-handed while trying to sell the item. All were arrested and interrogated on Saturday, during which they revealed that they had smuggled the elephant tusk from Coimbatore in Tamil Nadu and were selling it to a buyer in Udaipur.

The arrested accused were identified as CRPF sub-inspector Rahul Meena, a resident of Gadi Alwar; Amrit Singh Gurjar, a resident of Dosa; Arjun Singh Meena and Sanjay Singh Meena, both residents of Bharatpur and Reeta Shah, a resident of Jaipur.

Officials informed that the CRPF officer, who is currently posted in Kashmir, is the kingpin of the gang.

According to officials aware of the development, the Jaipur Criminal Investigation Department (CID) got the tip-off about tusk smuggling and information was passed on to the Savina police in Udaipur.

File | C:/Users/SHREE%20GANESH/citiesnews.html

City News

The Karnataka government on Saturday announced that carpooling in Bengaluru is banned and advised passengers not to take rides from the carpooling apps. The decision is said to be taken after the government received complaints from taxi driver associations. The transport department of Karnataka termed using whiteboard vehicles for commercial commute purposes as 'illegal' and said that a fine can be levied ranging from ₹5,000 to ₹10,000 if anyone is found operating the carpooling services. Ride-hailing apps like BlaBla Car, Quickride, Rideshare, Commute Easy, and Carpool Adda have been running carpool services for those who want to share their ride with others for a certain amount of money. Carpooling used to be considered as one of the factors to reduce the number of vehicles on Bengaluru roads during peak hours and many IT employees use these services to commute to work from their homes. However, the taxi associations said that the carpooling services are affecting their daily earnings and submitted a demand to the government to take action against them. The taxi associations and the autorickshaw drivers' union recently conducted a Bengaluru bandh and submitted a list of

The members of Outer Ring Road Companies Association (ORRCA) met Karnataka deputy chief minister DK Shivakumar on Saturday and discussed a plan to avoid traffic congestion during the peak hours on the city's ORR stretch. The unprecedented congestion on September 27 at East Bengaluru left the traffic management questioned once again in the IT capital. Bengaluru's joint commissioner of police for traffic MN Anucheth also joined the meeting and charted out a plan to reduce the traffic snarls in future. On social media platform X, ORRCA said, "Productive discussion with @blrcitytraffic @Jointcptraffic Sri MN Anucheth IPS with ORRCA leadership team. We agreed on a few measures which will be put into effect next week. These measures will help us reduce traffic congestion."

no surprise selection, there was a notable omission from the team, of that of Yuzvendra Chahal. Veteran cricketers in Harbhajan Singh was left baffled at the move from India but believed that the spinner will be back for the World Cup. But even as there was a late opening in the squad, Chahal was snubbed yet again. For the first time since the two big squad selections for India, Chahal has opened up on the World Cup omission.

In June of 2016, Chahal had made his debut in the ODI format and has picked 121 wickets, the third-most by an Indian bowler and second among spinners after Kuldeep Yadav during the period, in 72 appearances which includes two five-wicket hauls. The leggie, who has since been India's mainstay option in white-ball cricket, was also the highest wicket-taker among spinners in the 2019 World Cup, which was thoroughly dominated by fast bowlers, with 12 wickets in eight games with one four-wicket haul.

Speaking to Wisden India, Chahal revealed that it was sheer disappointment at missing out on the World Cup squad, but then laughed it off mentioning that it has now happened to him thrice in his career.

"I understand that only fifteen players can be a part, because it's a World Cup, where you can't take 17 or 18," Chahal said. "I do feel a little bad, but my motto in life is to move on. I'm used to it now... it's been three World Cups (laughs)."

Experience can teach a player a lot many things, especially getting out of difficult situations and adapting to the changing dynamics of the game, both of which can often come handy off the field as well. And Ravichandran Ashwin has mastered the art. On the field, he is a genius at work, deceiving batters with subtle variations while also adding to his arsenal of weapons as he keeps adapting to all the three formats even at the age of 37. And off the field, Ashwin has learned the art of dealing with situations on social media, one of which was on display on Saturday night.

India and Tamil Nadu teammates Dinesh Karthik and Ashwin shared a hilarious interaction on X (formerly known as Twitter) as the veteran wicketkeeper-batter shared a picture from their interview on Star Sports before the start of the World Cup warm-up game between India and England in Guwahati which was eventually washed out by rain.

In response to the reaction from Ashwin, a Pakistan cricket fan, teasing the star India bowler, served a brutal reminder of two sixes the legendary Shahid Afridi hit against the spinner in the 2014 Asia Cup tie. And Ashwin responded in a classy manner as he hailed Afridi for his act.

The fan posted: "Shahid Afridi Still remembers those two sixes."

And Ashwin replied saying: "Those were really good shots man. Really adored him as a great ball striker"

as the primary spin option with Ravindra Jadeja and Axar Patel as the spin-bowling all-rounders.

'Rohit, watch your pads!': Steyn warns IND skipper as SA legend snubs Bumrah to name 5 pacers to watch out for in WC

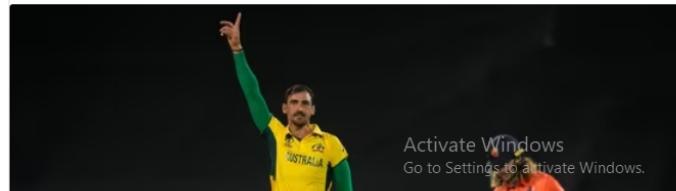

Steyn warned Rohit of a potential threat he might face during then impending World Cup campaign at home as he named five fast bowlers to watch out for

another carrom ball against No. 10 Junaid Khan, but the batter escaped with a single to put Afridi on strike, who them smashed two consecutive sixes - one over deep extra cover and other over long on as Pakistan clinched the thriller, winning by just one wicket.

Watch: Starc decimates Netherlands with stunning hat-trick, rings alarm bells for India ahead of side's World Cup opener

In the warm-up tie against Netherlands in Thiruvananthapuram, the pacer rocked the Netherlands top-order and completed a hat-trick.

INDIANNEWS File | C:/Users/SHREE%20GANESH/cricket.html

Cricket

In a recent interview, heading in to the 2023 World Cup, India skipper Rohit Sharma had revealed that Dale Steyn was the toughest bowler he faced in his career and surprisingly, a few days, the South Africa legend admitted that he rather faced difficulty in bowling to the India opener during his illustrious career, admitting that he managed to get the better of him only a handful of times. However, Steyn, in a sperate interaction, did warn Rohit of a potential threat he might face during then impending World Cup campaign at home as he named five fast bowlers to watch out for in the tournament.

The 2023 ODI World Cup will begin from October 5 onwards with 2019 finalists England and New Zealand kicking off the proceedings in Ahmedabad. India will begin their campaign three days later, against five-time champions Australia in Chennai and prior to the that the Men in Blue will face Netherlands in their final warm-up game for the World Cup after

The ODI World Cup starts in less than a week and Australia have already started ringing ominous bells for the opposition. The team arrived in India much before than others and engaged in a three-match ODI series with the Men In Blue. After an underwhelming show in the first two ODIs, Australia produced a terrific performance in the third and final ODI in Rajkot, which was a dead rubber. The team piled a massive 352/7 in 50 overs, with their top four inflicting most of the damage. David Warner scored 56 off just 34 balls, while Steve Smith and Marnus Labuschagne got out in their 70s. Mitchell Marsh can call him unfortunate as he fell short by four runs from completing a well-deserved ton. In response, India could only muster 286 before losing all their wickets in 49.4 overs. Ahmedabad. India will begin their campaign three days later, against five-time champions Australia in Chennai and prior to the that the Men in Blue will face Netherlands in their final warm-up game for the World Cup after their first, against defending champions England, was washed out due to rain in Guwahati.

Speaking on a video released by ICC on their Instagram page, Steyn revealed the names of five fast bowlers "who could do some damage at 2023 World Cup." Among the pacers was Pakistan's Shaheen Shah Afridi and the only remark Steyn made of him was rather directed towards the Indian captain. He said: "Rohit Sharma, watch your pads!"

Mitchell Marsh can call him unfortunate as he fell short by four runs from completing a well-deserved ton. In response, India could only muster 286 before losing all their wickets in 49.4 overs.

Now three days later it is their bowlers, in particular Mitchell Starc, who is dictating the show with his lethal bowling. In the warm-up tie against Netherlands in Thiruvananthapuram, the pacer rocked the Netherlands top-order and completed a hattrick.

Wasting no time, Starc got into business in the very first over of the Netherlands run-chase, packing Max ODowd and Wesley Barresi in consecutive deliveries. He got both the batters with deadly inswingers, something the batters had no response to.

ODowd was trapped LBW, while Barresi was cleaned up on a good length ball angling in after pitching outside the off-stump.

The destruction by Starc continued in his next over as he removed Bas de Leede in the first ball to complete his hattrick. Leede was outdone by an inch-perfect yorker with ball knocking the stumps.

'If these are the pitches, Pakistan will have to score 400': Ramiz Raja's far-fetched take on 2023 WC after loss to NZ

New Zealand chased down a 346-run target against Pakistan with over seven overs to spare in the warm-up game on Friday.

Cricket

successfully chased down a challenging target of 346 runs against Pakistan in their opening 2023 World Cup warm-up match. The New Zealand team secured a five-wicket victory in the contest. With the exception of the opening pair, Pakistan's batters, including Mohammad Rizwan (retired hurt after scoring 103 off 91 balls), Babar Azam (80 runs from 84 balls), and Saud Shaukeel (75 runs off 53 balls), showcased their form in the middle overs, allowing their team to post a formidable total of 345 for five in their allotted 50 overs.

New Zealand, however, managed to achieve the target in just 43.4 overs, thanks to impressive performances from Rachin Ravindra (who scored 97 runs off 72 balls), Kane Williamson (with 54 runs off 50 balls), Daryl Mitchell (who retired hurt after making 59 runs from 57 balls), and Mark Chapman (remaining unbeaten with 65 runs off 41 balls).

Former Pakistan captain Ramiz Raja, who has worked closely with the team during his stint as PCB chairman until last year, wasn't particularly pleased with the side's approach in the game. Ramiz stated that Pakistan need to bat according to the nature of pitches in India, insisting that they will have to score over "400."

"I know it was just a practice game, but a win is a win. And winning becomes a habit. But I feel Pakistan are now getting a habit of losing. First they lost in

Pakistan's cricket team received a warm welcome upon arriving in India, as Babar Azam's men prepare to take part in the 2023 World Cup starting October 5. Many fans gathered at the Hyderabad airport and chanted Pakistan players' names – particularly that of Babar – as the side landed in India on Wednesday. However, Pakistan Cricket Board (PCB) chairman Zaka Ashraf stirred controversy shortly after the side arrived in India, as he indirectly referred to India as the "enemy nation."

On the same day as their arrival, the PCB had announced a salary increase for its players. Following this, Ashraf mentioned that the raise in central contracts would provide additional motivation to the players as they prepare for the World Cup in a country considered an "enemy" by some.

Ashraf's comments drew significant flak from fans across both sides of the border, as well as the BCCI officials (according to PTI) and the PCB late Friday issued a clarification on the same. Referring to Pakistan's brilliant welcome in India, Ashraf said that it reflected the deep affection fans on both sides have for the players.

INDIANNEWS File | C:/Users/SHREE%20GANESH/cricket.html

Cricket

according to the nature of pitches in India, insisting that they will have to score over "400."

"I know it was just a practice game, but a win is a win. And winning becomes a habit. But I feel Pakistan are now getting a habit of losing. First they lost in Asia Cup, and now here. Pakistan scored 345 and it was a great run-chase. If these are the pitches – and you will get such pitches in India – you will have to score 400 if your bowling keeps misfiring like this. You will have to change your tactics, take risks. And we don't do that. We play defensively for first 10-15 overs and then shift gears," Ramiz said.

It is worth noting that star fast bowler Shaheen Afridi did not participate in the match, providing an opportunity for Haris Rauf and Hasan Ali to showcase their skills with the new ball.

Haris Rauf, who bowled just a four-over spell, went wicketless and conceded 36 runs. Hasan Ali, making his return to the Pakistan squad after a nine-month absence, had a promising start in his opening spell but struggled to contain runs as the New Zealand innings progressed.

Cricket World Cup 2023: A complete guide for travellers and fans in Delhi

issued a clarification on the same. Referring to Pakistan's brilliant welcome in India, Ashraf said that it reflected the deep affection fans on both sides have for the players.

"This love was evident by the reception arranged at the Hyderabad airport. Zaka Ashraf personally congratulated the Indians over arranging a reception of this kind. He mentioned that whenever India and Pakistan step onto the cricket field, they emerge as traditional rivals but not as enemies," the statement said.

"Chairman Management Committee also emphasised that cricket between Pakistan and India have always been the centre of global attention which is why cricket between the two countries is considered more significant than the other contests in this sport."

The two teams play each other in ICC events and Asia Cup due to the tense relations between the two countries. The players however get along well with each other. Babar Azam, Shaheen Afridi and Haris Rauf were left overwhelmed with the welcome at Hyderabad airport.

and cultural capital of the country. While you are in Delhi for the 5 ICC Men's Cricket World Cup matches, here's a quick list of the must-dos, must-eat, must-see and the dos and don'ts in Delhi Metro, the best way to navigate those 1,483 kilometres that Delhi is.

Match Fixtures:

- October 7:** South Africa vs Sri Lanka, 2 pm
- October 11:** India vs Afghanistan, 2 pm
- October 15:** England vs Afghanistan, 2 pm
- October 25:** Australia vs Netherlands, 2 pm
- November 6:** Bangladesh vs Sri Lanka, 2 pm

Stadium: Arun Jaitley Stadium.

Capacity: 55,000

How to reach the stadium: From Delhi Airport (T2) - 25 kms. From New Delhi railway station: 5 kms. There are enough cabs available from the airport as well as railway station to the stadium. Read instructions at Arrival about where to board Ola/Uber. Delhi's traffic is notorious, leave early. Nearest metro station: Delhi Gate (5-minute walk); it falls on the Violet line. If you are taking an auto-rickshaw, insist on meter-fare.

Average Temperature: In October, high of 35 and low of 22 degree Celsius.

If one had to pick just a couple of defining memories from Yuvraj Singh's stellar international career, his role in the heady World Cup triumphs of 2007 and 2011 is likely to take precedence. The ODI World Cup win in 2011 ended the 28-year wait to build on the legacy of Kapil Dev's team while the World T20 win in 2007 was path-breaking, largely responsible for the pre-eminence Indian cricket is accorded today.

Yuvraj, now 41 and four years into his post-retirement life, was the Player of the Tournament in 2011, starring with 362 runs and 15 wickets. Four years earlier, his six sixes in an over off England pacer Stuart Broad and a 30-ball 70 against Australia in the semi-final redefined the boundaries of what is possible in the shortest format a few months before the Indian Premier League (IPL) was launched and became an annual fixture in the T20 calendar. In short, he knows what he's talking about when the discussion revolves

"Even when you take one small step, good things start happening if you have the right intention and are willing to work for it," says Mihir Ghosh. For the 63-year table tennis coach, it is an aphorism.

Aditi Ashok won the first-ever medal for Indian women's golf in the 19th Asian Games at Hangzhou, but what looked like a sure-shot gold at the start of the day, turned into a silver nobody expected, thanks to the mind-numbing vagaries of the sport. How else can one explain a round of 77 with just one birdie, less than 24 hours after a stunning nine-birdie, one-eagle, career-low 61? How could Ashok not drop a single long putt after making everything from the next postcode and beyond on Saturday? How could her arrow-like tee shots desert her to the extent that she missed eight fairways during the round? The five-over par 77 was her worst round of the year (76s at the US Open

Lakshya, Satwik-Chirag wins not enough for gold but Indian badminton team creates history with memorable Asiad silver

Sports

Lakshya, Satwik-Chirag wins not enough for gold but Indian badminton team creates history with memorable Asiad silver

India lost to China 2-3 and had to remain content with a silver medal, which nonetheless was a historic feat.

postcode and beyond on Saturday? How could her arrow-like tee shots desert her to the extent that she missed eight fairways during the round? The five-over par 77 was her worst round of the year (76s at the US Open and AIG Women's British Open – both majors). Apart from the age-old, and rather illogical, adage of the game – it's almost impossible to follow one low round with another – it was all more intriguing than a whole season of 'X Files'.

'Privilege might give you a starting line': Abhinav Bindra wins hearts with epic reply, 'Passion and hard work'

Abhinav Bindra had established himself as a trailblazer after becoming the first Indian to win an individual gold medal at the Olympics.

INDIANNEWS File | C:/Users/SHREE%20GANESH/sports.html

Sports

Despite resounding victories from Lakshya Sen and the doubles pair of Satwiksairaj Rankireddy and Chirag Shetty, India, hindered by a last-minute injury to HS Prannoy, faltered after establishing an early 2-0 lead. This allowed China to make a triumphant comeback and retain their Asian Games crown in the men's team badminton event.

Lakshya mounted what could be considered the greatest comeback of his career, and Satwik and Chirag's unstoppable performance provided India with a 2-0 advantage. However, in the absence of Prannoy, who was sidelined with a back issue, India were the clear underdogs on paper.

Kidambi Srikanth faced a tough 22-24, 9-21 defeat against Li Shi Feng, and the pair of Sai Pratheek and Dhruv Kapila endured a 6-21, 15-21 loss in the second doubles match.

Mithun Manjunath, Prannoy's replacement, faced the formidable Hong Yan, but the Chinese player ruthlessly dispatched his opponent, sparking celebrations in their camp. In the end, China rallied to win the final three ties, securing a 3-2 victory and clinching the gold medal once again. India

Abhinav Bindra etched his name in the history of Indian sport by becoming the first in the country's independent history to have won an individual gold medal in the Olympics. Bindra's historic victory in the men's 10m air rifle event at the 2008 Olympics ended up becoming a watershed moment in Indian sport and thus far, only Neeraj Chopra has managed to emulate his feat by winning the men's javelin title at the Tokyo Olympics in 2021. Bindra has always stated that the fact that he was born into a privileged family helped him achieve his success.

Asian Games 2023: Avinash Sable secures India's first track and field gold; shot-putter Tajinderpal Toor defends title

Sable is the first Indian men's athlete to win a gold medal in the 3000m steeplechase at the Asian Games.

The handle, named "Gabbar", also posted a video with his tweet in which Bindra at the India Today Conclave in 2021 can be seen listing out the extreme lengths he went to prepare for the 2008 Olympics.

Asian Games 2023: Kynan Chenai shoots down individual bronze in men's trap

With 3 medals in trap on the last day of competition, Indian shooters will return home with 22 medals - their best ever in the continental showpiece.

INDIANNEWS File | C:/Users/SHREE%20GANESH/sports.html

Sports

Putting behind his World Championships disappointment in the 19th edition of the Asian Games on Sunday, runner Avinash Sable secured a historic gold in the 3000m steeplechase event. Kickstarting its athletics campaign at the Asiad in Hangzhou, India secured its first gold medal in track and field through Sable, who finished first by completing his 3000m race in 8:19.50. Smashing records in the ongoing edition of the Asian Games, Sable became the first Indian men's athlete to win a gold medal in the 3000m steeplechase at the Asian Games. Opening India's account in athletics at the Hangzhou Games, the 29-year-old has joined Sudha Singh in an exclusive list. Singh sealed a gold in the women's 3000m steeplechase at the 2010 Asian Games in Guangzhou.

After Sable won a historic gold in the 3000m steeplechase at the Asian Games, shot-putter Tajinderpal Singh Toor extended India's tally by successfully defending his title. Toor came up with an amazing final throw to upstage his Saudi Arabian rival in the men's final. The 2018 Jakarta Asian Games gold medallist produced a stunning throw of 20.36 metres on his sixth and last attempt to beat Mohamed Daouda Tolo, who covered a distance of 20.18 metres with his attempt.

Indian trap exponents made it a memorable final day of shooting competitions here with the men's team clinching a gold and Kynan Chenai taking the individual bronze after the women had won the team silver at the Asian Games.

With three medals in trap on the last day of competition, Indian shooters will return home with an amazing haul of 22 medals -- seven gold, nine silver and six bronze -- their best ever in the continental showpiece.

After the men's and women's teams had won their medals, all eyes were on trap stalwarts Kynan and Zoravar Singh in men's and Manisha Keer in women's to bring individual glory as they had all entered the six-shooter finals.

Kynan went on to shoot down the bronze after being in contention for silver, aggregating 32 out of 40.

Veteran marksman Zoravar, competing in his third Asian Games spread over 25 years, once again failed in his endeavour to clinch a major individual medal in his entire career finishing fifth in the finals shooting 23/30

India were 2-0 up, Kidambi Srikanth was leading 18-14 in the first game against Li Shifeng and the men's team looked all set to win a first-ever gold medal in badminton at the Asian Games.

China, on the other hand, had worried faces in their corner. Having already lost the women's team final 0-3 to South Korea a short while earlier, the hosts were on the verge of losing a successive summit clash in front of a vociferous home crowd.

But an encore of the 2022 Thomas Cup did not take place at Hangzhou's Binjiang Gymnasium as China rallied to stage a come-from-behind 3-2 victory to defend their title on Sunday.

India signed off with a silver, their first in the men's team event and second overall after PV Sindhu claimed the first in women's singles five years ago at Jakarta. This is also the fourth medal for India in men's team category, having claimed a bronze each in Tehran 1974, New Delhi 1982 and Seoul 1986.

The Dutch Eredivisie match between RKC Waalwijk and Ajax was suspended Saturday night after the home team's goalkeeper, Etienne Vaessen, collided with Ajax striker Brian Brobbey and lost consciousness. Waalwijk director Frank van Mosselveld told Dutch broadcaster NOS that medics administered CPR on the pitch before Vaessen was carried off on a stretcher and taken to a hospital.

"You think heart problem, but it doesn't look like that," Van Mosselveld said. He said that Vaessen was knocked out in the collision with Brobbey but regained consciousness before he was stretchered off. He said that in the locker room after being taken off the pitch Vaessen "didn't know what had happened or where he was."

Ajax sent a message on its official social media saying: "We're with you, Etienne."

Activate Windows
The match was called off in the 85th minute with Ajax leading 3-2. Windows.

Education

This task would need the addition of 3.5 crore seats in higher education, according to a press release by the Ministry of Education. Investments in the education sector will also have to be increased to be able to support the arduous task.

Why empowering teachers is key to a sustainable future

Education systems must transform to meet the demands of students who are calling for transformative education that addresses sustainable development.

2020

The National Education Policy (NEP) 2020 has been hailed as a ground-breaking reform, setting a visionary path for transforming India's education system. Its goal is to promote holistic learning and critical thinking, representing a much-needed overhaul to modernize our schools. However, the success of this ambitious policy hinges on swift and dedicated implementation, preventing these crucial reforms from languishing or losing their impact.

The Urgency of Prompt Implementation
The NEP 2020 aims to tackle longstanding issues in the education system, including rote memorisation, outdated curriculum, and inadequate teacher training. The potential of these reforms lies in equipping the next generation with the skills required to thrive in the 21st century. To achieve this vision, it is imperative to expedite the implementation process.

Reimagining the Curriculum:
The NEP 2020 advocates a multidisciplinary approach, integrating essential life skills alongside conventional subjects. Prioritizing a deeper

Education

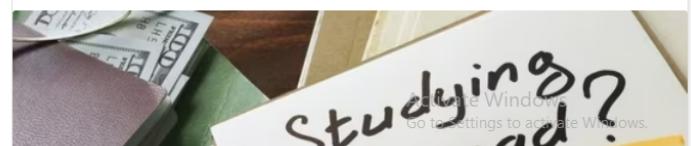

Students demand transformative education, but can our education systems keep up? The world's learners are not equipped to face the challenges of an unsustainable future. While education has long been heralded as a crucial catalyst for sustainable development, the potential of education to drive impactful environmental, economic, and societal change has yet to be met. Target 7 of the United Nations' Sustainable Development Goal 4 on Quality Education (SDG 4.7) calls for "all learners to acquire the knowledge and skills needed to promote sustainable development", including areas like climate and environmental education, global citizenship education, and human rights education. At the United Nations Transforming Education Summit in September 2022, 114 countries submitted National Statements of Commitment to advance and transform education. Seventy-nine of those country commitments refer to education for

syllabi, and providing teachers with the necessary training for effective delivery.

Empowering Teachers: The cornerstone of successful education reform lies in empowering educators. Continuous professional development is at the heart of NEP 2020, necessitating workshops, seminars, and online training programs to equip teachers with innovative teaching methodologies.

Going abroad for studies? Here are 5 tips to succeed and enjoy study abroad journey

CBSE Board Exam 2024: Check Class 10 Science sample question paper details here

CBSE to conduct Class 10 and Class 12 board exams from February 15. Sample question papers available on cbseacademic.nic.in.

Are you planning to study abroad? More and more students are going abroad to study these days. Studying abroad can be a once-in-a-lifetime opportunity, but for many this opportunity comes with the struggle of living a life away from our homeland, a place not familiar to them.

Embrace cultural immersion: It is always a good idea to begin learning about the cultures and values of the country you are in because doing so will not only improve your lifestyle there but will also make it easier for you to get along with the locals. To learn more about the country you are in, you can attend cultural events, and local festivals, be friendly with your peers, hop in local cuisine, get familiar with their local gourmet and delicacies, and visit historical sites.

The screenshot shows a web browser window with the title bar "INDIANNEWS". The address bar displays the file path "C:/Users/SHREE%20GANESH/lifestyle.html". The main content area features a large, bold heading "Education". Below the heading, there is a snippet of text: "SCHENIC TO HELP STUDENTS PREPARED FOR THE FINAL EXAM. THESE CAN BE downloaded from the academic website of the board, cbseacademic.nic.in. Check details of the Class 10 Science sample paper below:" followed by a bulleted list of 10 points detailing the structure of the Class 10 Science sample paper. At the bottom of the snippet, there is a link: "Checking CNSE sample papers can help students in understanding the pattern of the exam and type of questions that will be asked. Many teachers and students had previously said that main exam papers were set in the". A black navigation bar at the bottom contains the word "Lifestyles" in white.

- The theory paper of Class 10 Science will be held for 80 marks and the duration will be 3 hours.
- The sample paper has 39 questions, divided into 5 sections.
- All questions in the paper are compulsory. However, internal choice has been provided in some questions.
- Section A of the Class 10 Science sample paper consists of 20 objective type questions carrying 1 mark each.
- Section B has 6 very short questions carrying 2 marks each. Answers to these questions should be in the range of 30 to 50 words.
- Section C carries 7 short answer type questions of 3 marks each. Answers should be in the range of 50 to 80 words.
- Section D of the paper consists of 3 long answer type questions of 5 marks each. Answer should be in the range of 80 to 120 words.
- Section E has 3 source-based/case-based units of assessment of 4 marks each, with sub-parts.

Tips to fix a friendship after a big fight

From taking some time off to cool down to checking-in regularly, here are a few ways to repair a friendship after a big fight.

Ironman 70.3: On October 8, 1,600 triathletes will run, swim, bike 113 kilometres in Goa

Nearly 1,600 triathletes from 30 countries will gather in Goa for Ironman (third edition in India), the world's toughest one-day sporting event.

Lifestyles

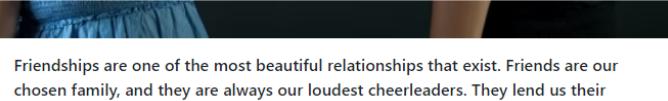

Friendships are one of the most beautiful relationships that exist. Friends are our chosen family, and they are always our loudest cheerleaders. They lend us their shoulders to cry on in our difficult times and share the happiness and success with us when we are winning. However, friendship fights can be equally painful as that of a romantic relationship. "Fights are inevitable, but whether you survive the fight or not depends on how you repair. Repairing a friendship after a major fight is crucial for maintaining and nurturing a meaningful connection. Conflicts are inevitable in any relationship, and addressing them constructively shows a commitment to understanding, growth, and resilience. By making amends, apologizing, or engaging in open and honest communication, friends can rebuild trust and bridge the emotional gaps that arise during disagreements," wrote Therapist Israa Nasir.

Count the kilometres. Between London & Stonehenge. San Francisco to Sacramento. Paris to Moet & Chandon. New Delhi to Aligarh. Mumbai to Alibaug. Now, catch a breath and imagine running, swimming and cycling a distance of 70.3 miles (113 kilometres). No, you cannot be the snail, there's a cut-off time: 8 hours and 30 minutes. Wait, be prepared to lose 1-2 kilograms during a 70.3-mile race. Lost a breath and tons of sweat? Well, that's what nearly 1,600 triathletes from 30 countries will do on October 8 in Goa - participate in Ironman, the iconic global triathlon widely considered one of the most difficult one-day sporting events in the world. In its third edition in India, the Ironman 70.3 (the full Ironman race is a combined length of 140.6 miles or 226.3 kilometres) will begin with a 1.9 km swim off Miramar Beach, followed by a 90 km bicycle ride before concluding with a 21.1 km run from Miramar Circle in Panaji, the state's capital.

Beach, followed by a 90 km bicycle ride before concluding with a 21.1 km run from Miramar Circle in Panaji, the state's capital.

While most triathletes start training a year or two prior to participating in the race, for the organisers, Ironman 70.3 is a logistical bogey. Nearly 1,200 people, including 700 volunteers will man and assist the streets and the crowd that day. 21 tons of ice and 23,000 litres of portable water will be readied for use. Eight aid stations along the course for hydration and nutrition. A couple of bike mechanics will be on standby in case of emergencies, but participants are responsible for their bikes. If something minor happens, like a flat tyre, they need to fix it themselves and keep going. That's how triathlons work. Roads will be closed, and traffic chaos in the state's heart will have to be managed.

Amitabh Bachchan and Jaya Bachchan's granddaughter and Shweta Nanda's daughter, Navya Nanda, made a fiery debut at the Paris Fashion Week last night. Navya walked the ramp for L'Oreal Paris with several big names, including Aishwarya Rai Bachchan, Kendall Jenner, Helen Mirren, and more stars. Aishwarya has had a long-standing relationship with the label as their brand ambassador. However, her niece, Navya Nanda, joined her on the ramp this time. Scroll through to see what Navya wore.

Navya Nanda at the L'Oreal Paris show during the Paris Fashion Week

Navya Nanda walked the ramp for the L'Oreal Paris show near the Eiffel Tower as part of the ongoing Paris Fashion Week. Pictures of Navya strutting the ramp in a deep red creation made it to social media. Navya's outfit features an off-the-shoulder neckline displaying her decolletage, a ruffled overlay adorned on the neck, full-length sleeves with similar ruffles, cinched cuffs, a mini hem length, a figure-skimming silhouette, and a cinched waistline.

Navya styled the fiery red ensemble with minimal accessories, including black peep-toe stilettos featuring high heels. Lastly, she chose subtle smoky black eye shadow, winged eyeliner, kohl-lined eyes, darkened brows, mascara on the lashes, deep red lip shade, blushed cheekbones, bronzer, and beaming highlighter for the glam picks. Centre-parted and open wavy locks gave the finishing touch to her ramp look. Earlier, Navya had shared a few snippets from Paris. The pictures showed her in an ice-blue-coloured strapless mini dress and pearl-adorned accessories. She also shared a

Goa is the Ironman India's home ground. Why Goa? "We chose Goa because it's a popular travel destination, making it attractive to both locals and international participants. Goa offers a great backdrop for the race and provides convenience with various accommodation options and good airport access. Its marketability was crucial for attracting brands and participants. Ensuring the safety and quality of the beach waters was another essential factor. Government support for road closures was critical and after evaluating different cities, Goa emerged as the best choice due to its suitability and strong government backing," says Deepak Raj, Chief Executive Officer of Yoska and franchise owner of the Ironman brand in India.

About Navya Nanda

Meanwhile, Navya Nanda has a podcast called What The Hell Navya. She even hosted a few episodes with her mother and grandmother. She is rumoured to be dating actor Siddhant Chaturvedi. Her brother, Agastya Nanda, is set to make his Bollywood debut this year in Zoya Akhtar's The Archies.

Not every triathlete is a professional. There are 75+ participants from the Armed Forces, few CEOs, CFOs and management personnel will be testing their mettle beyond the boardroom. Several 18-year-olds queued up to register. So did Mumbai's Aries Kharas, 70, and Pervin Batiwala, 66, the oldest man and woman in the Ironman 70.3. And Bishworjit Saikhom previous winner of the men's category in the Ironman 70.3 India. Maharashtra, Karnataka and Haryana top the list of states with the highest number of participants.
